

(事業成果物：船用工業セミナー概要)

マレーシア船用工業セミナー

1. 2023年6月20日(火)～23(金)
セミナー: 6月21日(水) 14:00～16:20
展示会: 6月20日(火)～23(金)
2. 場所: Kuala Lumpur Convention Centre, Level 3, Hall 2 & Hall 3

AGENDA		Visit our booth @ MMW23 JAPAN PAVILION
2.00 pm	Welcoming Address by Tomoo kuzu Vice Chairman, Japan Ship Machinery and Equipment Association (JSMEA)	
2.05 pm	Keynote Address by Handan Ramli Senior General Manager Production and Operations Management Malaysia Petroleum Management PETRONAS	
2.20 pm	Introduction of KAMOME Products and Applications Kamome Propeller Co., Ltd.	
2.30 pm	Daihatsu Product Daihatsu Diesel Mfg. Co., Ltd.	
2.40 pm	Kawasaki GHG Reduction Technology Kawasaki Heavy Industries, Ltd.	
2.50 pm	Eco Navigation Solution Tokyo Keiki Inc.	
3.00 pm	Outstanding Performance With a Barnacle-Repellent Boost Chugoku Paints (Malaysia) Sdn. Bhd.	
3.10 pm	Maximising Potential of the OSV Sector in Malaysia Jamalludin Bin Obeng President, Malaysia OSV Owners' Association (MOSVA)	
3.30 pm	Unite As Taiyo Taiyo Electric Co., Ltd.	
3.40 pm	Yanmar Green Challenge 2050 Yanmar Power Technology Co. Ltd	
3.50 pm	Accommodation for Next Generation Nagasaki Sempaku Sobi Co., Ltd.	
4.00 pm	New Propeller for the New Wave Nakashima Propeller Co., Ltd.	
4.10 pm	BEMAC Dynamic Positioning System BEMAC Corporation	
4.20 pm	MOU Signing Ceremony Malaysia OSV Owners' Association(MOSVA) / Association of Marine Industries of Malaysia (AMIM)	
4.40 pm	Closing Remarks by Mohamed Safwan Othman Chairman, Malaysia Shipowners' Association (MASA)	

・トルコ船用工業セミナー

1. 日時：11月8日(水)12:30~18:00
2. 開催場所：Sheraton Grand Istanbul Atasehir Hotel
(Room : BALO SALONU1、FUAYE1)

Turkey Japan Maritime Business Matching Forum 2023		3:25 PM	
<p>Turkey Japan Maritime Business Matching Forum 2023</p> <p>Presentation Program</p> <p>8th November, 2023 Sheraton Grand Istanbul Atasehir - Room Balonu 1(B1)</p> <p>OPEN 12:00 PM / START 12:30 PM</p> <p>Presentation Start</p>		<p>MOL,Techno-Trade, Ltd.</p> <p>PBCF (Propeller Boss Cap Fins)</p> <p>PBCF is a device that improves propulsive efficiency by recovering energy from the hub vortex generated behind a propeller. As a result, PBCF reduces fuel oil consumption, underwater noise, stern vibration and prevents rubber erosion. PBCF has been installed on more than 3,950 vessels around the world since the technology was introduced in 1987.</p>	
<p>2:30 PM</p> <p>Miura</p> <p>Composite Boiler / BWTS / Ship Board Incinerator / Fresh Water Generator</p> <p>Miura has nearly 60 years experience in manufacturing ship machinery. In 60 years we have consistently aimed to create single products that deliver the best functions, quality and service. We offer components and a one-stop maintenance service where our maker engineers visit the ship from Japan, China, Korea, Singapore, Netherlands and Houston and supply parts in time. Our service contract can be maintained, offering peace of mind for many years, as part of our after sales service system.</p>		<p>3:35 PM</p> <p>Mitsubishi Heavy Industries</p> <p>Company & Product Introduction</p> <p>Mitsubishi Heavy Industries Marine Machinery & Equipment Co., Ltd. a wholly-owned operating company of Mitsubishi Heavy Industries, Ltd. We provide vessel marine machineries and solution services according to customer needs with reliable technology and quality proud of extensive track record of more than 130 years.</p>	
<p>2:40 PM</p> <p>Welcome Speech</p> <p>Mr. Kinoshita Shigeki Chairman Japan Ship Machinery and Equipment Association</p>		<p>3:45 PM</p> <p>Recent developments in ship design activities in turkey</p> <p>NATTEK NATEK NAVAL TECHNOLOGIES INC.</p> <p>Mr. Ferhat Acuner General Manager Natek Naval Technologies Inc.</p>	
<p>2:45 PM</p> <p>Present Market and Future Prospect of Turkish Shipping Industries</p> <p>Mr. Cihan Ergenc Chairman of the board Turkish Ship owners Association</p>		<p>4:00 PM</p> <p>Nabtesco</p> <p>Solution for Newbuilding and After sales service</p> <p>We, Main Drive Control Systems Company in Nabtesco Corporation, support safe, secure and comfortable voyage with unique motion control technology. We have more than 50 years history in the marine industry and deliver excellent and reliable bridge maneuvering system as leading company with 40% of share in global market. We also provide a range of product, including the hydraulic/pneumatic products and other key components certified by all major class and suitable to electrical controlled 2st and 4st main engine. We have a global service network of service engineers with excellent technical skills to support operation of vessels 24 hours, 365-day and bring more safety. We are very keen to support our customers by grasping what they need, through various marine products & service. We look forward to seeing you at our presentation.</p>	
<p>2:00 PM</p> <p>USHIO</p> <p>Eco and Crew Friendly HVAC Systems and Marine Elevator</p> <p>USHIO REINETSU is globally recognized for its marine HVAC and elevator systems. The company is expanding its maintenance and repair services worldwide. Their mission includes ensuring product quality throughout the vessel's lifecycle, securing the health and safety of the vessel crew, and contributing to environmental preservation.</p>		<p>3:00 PM</p> <p>Present Market and Future Prospect of Turkish Shipbuilding Industries</p> <p>-Introduction Movie - Turkish Shipbuilding Association</p>	
<p>2:10 PM</p> <p>KAMOME PROPELLER</p> <p>Steer to the new era GATE RUDDERS SYSTEM</p> <p>Completely new concept rudder creating the thrust</p> <p>The GATE RUDDERS consists of two uniquely shaped rudders placed in parallel either side of the propeller instead of placing behind the propeller, which reduces resistance of rudder and create thrust to improve the energy consumption of 14% during the sea trial of the vessel.</p>		<p>3:15 PM</p> <p>DAIHATSU</p> <p>TECHNOLOGY for the EARTH: Challenging NET ZERO Emissions</p> <p>Daihatsu Diesel, a Japanese engine manufacturer with a 115-year history and a member of the Toyota Group, is taking on the global environmental challenge by transitioning to clean energy. We would like to share our progress in developing engines that utilize innovative fuels like Methanol and Ammonia, while also exploring various solutions to achieve net zero emissions.</p>	
<p>2:20 PM</p> <p>CMP CHUGOKU</p> <p>EARLO NEO series, Ultra-low friction anti-lubrication system</p> <p>From an anti-lubricating coating perspective CMP offers solutions which covers the whole operational value chain of a ship. CMP takes great pride in the technology of our products which covers the full range of anti-lubricating coatings. CMP's anti-lubricating coatings SEARLO NEO series prevent marine fouling settlements and provide an ultra-low friction full surface thereby reducing the absolute fuel consumption level of a ship.</p>		<p>4:10 PM</p> <p>NAKASHIMA</p> <p>Propeller, Thruster and ESD</p> <p>Nakashima Propeller is a comprehensive manufacturer of marine propulsion equipment, handling every type of propeller, from those used on leisure boats to super-sized VLCC tankers, over-20,000 TEU container ships. We also support smooth voyages with a variety of side thrusters, electric propulsion systems, and controllable pitch propellers that are able to freely vary both operating speed and ahead/astern direction simply by controlling the angle of their blades. In addition, ESD (Energy Saving Device) based on our own fluid design techniques is being materialized, such as Eco-Cap, Composite Stator.</p>	
<p>4:20 PM</p> <p>HANSHIN DIESEL</p> <p>Hanshin Low Speed 4 Stroke Engines</p> <p>HANSHIN DIESEL WORKS, a comprehensive manufacturer of main engines and propulsion systems for ships. We offer many high-performance, high-precision products born from the original technology and experience we have cultivated over our long history. We are highly evaluated and trusted by the shipping industry not only in Japan but throughout the world.</p>		<p>5:00 PM</p> <p>BEMAC</p> <p>Drive and shape optimization</p> <p>Shipping, a major infrastructure of global economy. How to ensure safety and pursue economic at the same time. Providing Solution to be mission for BEMAC.</p>	
<p>4:35 PM</p> <p>Recent developments in ship design activities in turkey</p> <p>DELTA MARINE Building solutions. Creating value.</p> <p>Mr. Dirim Sener Business Development Director Deltamarin Ltd</p>		<p>5:10 PM</p> <p>FUJI ELECTRIC</p> <p>Exhaust Gas Cleaning System & Carbon Capture</p> <p>For saving the operating cost, EGCS is one of best solution with big advantage. World smallest size and very high pH by Fuji's high technology. Received the AIP from Class NK for Electric Dust Collector, which is important equipment of Carbon Capture System and now developing as unique type with large volume of CO₂.</p>	
<p>4:50 PM</p> <p>YANMAR</p> <p>Yanmar Power Technology, Products and technology for a sustainable future.</p> <p>With pioneering core technology that is always ahead of the curve, YANMAR is pursuing the effective utilization of energy resources on land, at sea, and in our cities. Harnessing innovative technical ability cultivated over our long history and years of experience, our marine engines deliver long-term reliability and durability to maximize the life-span of your ship. In this pursuit of improved "Life Cycle Value" to realize low operating costs for our customers. By striving to develop more sophisticated environmentally conscious technology, as well as reducing emissions of air pollutants and the use of environmentally hazardous substances, our ultimate goal is to deliver technology that secures clean air and seas for future generations, and which contributes towards harmonious coexistence between a prosperous humankind and the Earth's environment.</p>		<p>5:20 PM</p> <p>Closing remark</p> <p>JSMER Japan Ship Machinery & Equipment Association</p> <p>Mr. Oda Masato Vice Chairman Japan Ship Machinery and Equipment Association</p>	
<p>Meeting desk Only</p>		<p>NIPPON SENTO CO., LTD.</p> <p>Our Products: NAVIGATION LIGHT TYPE-WB, NB and NL</p> <p>We are a manufacturer of navigation lights. Since 1936, our company has proudly served to the shipyards in Japan. Now we are delighted to present our products in Turkey. Navigation lights are essential items to ensure the safety of ships and convoys at night and in bad weather. Our navigation lights are MSC 253(B3) adopted and MED or JG approved.</p>	

台灣船用工業セミナー

1. 日時：2024年2月21日（水）10:30~14:00
2. 開催場所：高雄区漁会大楼 4F（高雄市前鎮區漁港東二路三號）
